AGREEMENT FOR TRANSFER AND OPERATION OF THE "STATE DEPARTMENT"
PRINTING PLANT LOCATED AT 2430 E STREET, N.W. (NOW KNOWN AS
GPO-STATE SERVICE OFFICE) — JANUARY _____, 1951

WHEREAS, on November 27, 1946 the Department of State, Central Intelligence Group, and the Government Printing Office entered into an agreement whereby the State Department printing plant located at 2430 E Street, NW, was transferred to and has since been operated by the Government Printing Office with the designation of "GPO-State Service Office"; and

WHEREAS the reproduction facilities of the Central Intelligence Agency are being consolidated for purposes of increased capacity, improved efficiency and economy; and

WHEREAS approximately 30 percent of the capacity of the facilities of the GPO-State Service plant and equipment are now used to produce classified material for the Central Intelligence Agency; and

WHEREAS it appears to the Department of State, Central Intelligence Agency and the Government Printing Office that further economies and increased efficiency can be obtained by consolidating the facilities of the GPO-State Service plant with the reproduction facilities of the Central Intelligence Agency, housed under one roof and operated as a production unit:

NOW, THEREFORE, It is agreed that the Agreement of November 27, 1946, above referred to, is amended as follows:

1. The GPO-State Service Office located at 2430 E Street, NW, will be transferred, effective 2 February 1951, to the Central Intelligence Agency, and will be merged and relocated with the reproduction facilities of that Agency as soon as practicable after the transfer;
2. The resultant plant will be completely operated by the Central Intelligence Agency as a secure plant for CIA reproduction and printing requirements in accordance with CIA Security Regulations;
3. Central Intelligence Agency agrees that it will furnish printing services for classified material to the Department of State to the extent and in the manner now provided by the GPO-State Service Office;
4. Providing prior clearance has been obtained from the GPO, the Central Intelligence Agency will provide similar services as those now provided to other government agencies subject to the exclusive right of CIA to determine that any such requirements are not within the capability of the facilities and are not in conflict with higher priority work to be produced at the plant;
5. Agencies requesting work to be performed in accordance with the terms of this Agreement will reimburse CIA, and CIA will maintain a cost accounting system adequate to determine such costs; and further certification by an authorized official of CIA on Standard Form 1080, "Voucher for Transfers between Appropriations and/or Funds", will be accepted by any requesting agency as final determination of the correctness of the amount for which billing has been made;
6. Priorities of all work to be produced in the consolidated plant will be established by CIA in the first instance, and any conflicts of priorities will be resolved by the Deputy Director (Administration),

Central Intelligence Agency, after consultation with appropriate representatives of the Department of State and/or the Government Printing Office, as the circumstances may require.

7. The Department of State and the Government Printing Office hereby agree to conform to CIA Security Regulations.
